

ITCHY SALT RHEUM

Sometimes Called Eczema—Removed by Hood's Sarsaparilla.

Salt rheum is one of the worst and unfortunately one of the most common of all diseases. How it reddens the skin, itches, oozes, dries and scales, and then does it all over again. Sometimes it covers the whole body with inflamed, burning patches and causes intense suffering, which is commonly worse at night.

Local applications may do some good, but they cannot permanently relieve. The disease will continue to annoy, pain and perhaps agonize, until the blood has been purified and the general health improved.

Ask your druggist for Hood's Sarsaparilla, the good old reliable family remedy. It has given perfect satisfaction in thousands of cases. Insist on having Hood's Sarsaparilla, for no substitute acts like it. Get it to-day.—Adv.

President Wilson Supports Larger Naval Program

WANTS ITEM FOR TWO DREADNOUGHTS

Efforts to Enlarge the Bill Are to Be Made in the Senate

Washington, June 21.—Eight capital ships, two of them dreadnoughts and the remainder battle cruisers, are a possibility of this year's naval building program, following an important meeting of the Senate committee on naval affairs yesterday. This was preceded by a conference at the White House between Senator Tillman of South Carolina, chairman, Secretary of the Navy Daniels and Senator Swanson of Virginia, the active Democrat on the committee. At this conference it was disclosed that President Wilson is not averse to a larger building program, while Senator Tillman is warmly in favor of it. The committee yesterday appointed Senators Tillman, Swanson and Lodge of Massachusetts a sub-committee to go over the House bill and report back to the committee practically a draft of it. These three are all "big navy" men, and it is thought that the prospects of materially enlarging the building program are good with the administration backing the Senate bill. A strenuous effort will be made in the committee also to amend the armor plate section, which had been tacked on in the House, by providing that the federal trade commission shall be empowered to fix the price the government shall pay for armor plate. A proposition to sell at this price has been laid before the committee formally by the Bethlehem Steel company and the issue will be pushed.

BASEBALL NOTES

Manager Stallings is very favorably impressed with young Bailey, the southern collegian who just joined the team, but may not make a regular berth for a time yet.

John McGraw has signed Mike Doolan. The veteran shortstop was released by the Cub management to Atlanta a few weeks back. Doolan balked at going to the minors, so Weeghman gave him permission to deal with the Giants.

Baseball takes some funny turns, and one of the funniest is the falling off of the great infield that Connie Mack had together two years back. Out of this quartet there is only one that is batting over .250, this being Baker, who is now with the Yankees, his average being .264; while Eddie Collins, now with the White Sox, is following along with an average of .248, Barry with the Red Sox has .216 and Stuffy McInnis is trailing in the dust of them all with only .183 for an average. Considering the fact that this lot of players was able to have at least three between .320 and .360 when Connie had them as charges it is quite a jar to see the four batting for an average of about .225. There may be something to this, but the fact that "united, we stand and divided we fall" and changed to a fan's view, "united we bat above .300 and divided we bat below .250."

Last week's firmness in heavy beef stock brought heavier receipts and therefore prices eased off a little, but better offerings were noted and the range of values widened materially, offerings finding ready buyers. Best cattle sold at 9½¢ to 10¢, and occasionally a fraction more and light cattle 8½¢ to 9¢.

IN BOSTON MARKETS.

Butter Receipts Heavy, Demand Light—Good Eggs None Too Plenty.

Boston, June 21.—The local butter market is beginning to develop a top heavy condition, for receipts are heavy, and while there is a fair consumptive demand, there is not the usual speculative buying and all receivers report a surplus. The excess of supplies can be disposed of at cost or at a slight loss, and some receivers are disposed to take this course rather than store butter at prices that seem too high to be safe, and this tends to offset the effect marketwise of the butter that is going into the cooler on receivers' accounts. The cheese market is steady. Good eggs continue none too plenty for wants and prices are firm.

Jobbing quotations:
Butter—Fancy northern creamery, tubs 32¢ to 32½¢, boxes 33¢ to 33½¢, prints 33½¢ to 34¢; fancy western creamery, 31½¢ to 32¢; good to choice creamery 30¢ to 31¢.
